PROFILE INFO

Hello, my name is Dima and I have worked in architecture all my life. In 2021, I decided to study programming and I want to become a professional developer. I have a desire to learn and explore new technologies and architectures

WORK EXPERIENCE

Architect and designer

2011 - 2022

From 2011 to 2022, I worked in architecture, construction, 3D modelling and design fields. I also started a clothing business, a café business and furniture production.
