Kyiv Children's Academy of Arts

2008 - 2012
Bachelor Of Architect
National Academy of Arts and Architecture

LANGUAGE

- English (B1)
- Ukrainian
- Russian

PROFILE INFO AND WORK EXPERIENCE

Hello, my name is Dima and I am on my way to transition from the world of architecture to programming. While I have spent most of my career in architecture, I chose this new path in 2021 to become a proficient developer. During my time working in architecture, I have learned important skills such as attention to detail, creative problem solving, and teamwork skills.

I want to bring my vision and skills to a growing team. My architectural background has given me a deep understanding of the importance of elegant design and user-centered solutions, which I believe will be useful in building applications.

I would welcome the opportunity to discuss how I can contribute to your company and help achieve your goals.

PROGRAMMING LEARNING

- SwiftBook
- **YouTube** Ian Solomein: "Basics of Swift".
- **YouTube** Alex Skutarenko: "Basics".
- **YouTube** iCode School: "IOS Developer Course".
- **YouTube** The Swift Developers: "Swift / UIKit / SwiftUI
- **YouTube** CodeWithChris
- **YouTube** Art Kirillov: Design patterns
- **YouTube** Vyacheslav Belyi: Swift / UIKit / SwiftUI
- **YouTube** SimpleDEV and others
- **Book** A Mind for Numbers
- **Book** Code Complete, **and so on...**

SKILLS

- Swift
- UIKit
- SwiftUI
- S.O.L.I.D.
- OOP principles
- GitHub
- Photoshop
- ARC
- URLSession, JSON
- Design patterns
- Architecture MVC MVVM
- Lifecycle
- UserDefaults, Core Data
- Firebase
- GCD
